

DESIGN PROBLEM STATEMENT

Not necessarily you need to have awesome design skills, or you need to have the knowledge of some dope software. Use any tool you want, to awe-struck us with your creativity. | Compress your submissions and your other works (if you have any) and incase you have any hand drawn stuffs, scan it and include it with your zip file. | The project files must be compressed into a single file in a common format (zip/rar/tar.gz) and strictly named as ENROLLMENT NUMBER_DESIGN.zip ; for e.g. 14116020_DESIGN.zip . Only the last entry will be considered incase of multiple submissions per candidate.

Last date for submission is 10th Jan - 11:59 PM

SECTION A

Figure out any five design flaws/changes in the SDS Labs homepage (sdslabs.co.in) and suggest your solutions for the same.

Design your own version of the SDS Labs homepage which should contain a catalog of all the applications of SDS Labs. Incorporate your suggestions for the homepage in your design.

SECTION B

- Design a logo for a movie streaming application.
- Where do you get your design inspirations from?
- Suggest a color palette which is suitable for a design that involves:
 - a. net banking
 - b. food ordering service

And justify your choice.
