

# DESIGN PROBLEM STATEMENT

## SECTION A

VarunX runs a tourism and travelling agency and wants to expand his business prospects by taking his business online and launch a webapp of his agency. Design a **web app interface, logo and promotional material (banners or posters)** for VarunX's agency. You are free to use any software of your choice.

Or the same problem statement for an E learning web app.

—  
If there is anything you've designed in the past and are proud of, share it with us.  
( Keep it in a folder named "Personal Projects" )

## SECTION B

- Your 3 favorite websites and why you like them.
- Describe an app with the worst ever interface.
- Where do you get your design inspiration from?
- A color palette you think is suitable for a design concerning :
  - a. online banking app.
  - b. music streaming app.
- Also reason for choosing it.
