DESIGN PROBLEM STATEMENT

Not necessarily you need to have awesome design skills, or you need to have the knowledge of some dope software. Use any tool you want, to awestruck us with your creativity. | Compress your submissions and your other works (if you have any) and incase you have any hand drawn stuffs, scan it and include it with your zip file. | The project files must be compressed into a single file in a common format (zip/rar/tar.gz) and strictly named as ENROLL-MENT NUMBER_NAME.zip ; for e.g. 14116020_Ajay Kumar.zip . Only the last entry will be considered incase of multiple submissions per candidate.

Last date for submission is 10th Jan - 11:59 PM

SECTION A	SECTION B
Figure out any five design flaws/changes in the SDSLabs homepage (sdslabs.co.in) and suggest your solutions for the same.	• Design a logo for a movie streaming application.
	• Where do you get your design inspirations from?
Design your own version of the SDSLabs homepage which should contain a catalog of all the applications of SDSLabs. Incorporate your suggestions for the homepage in your design.	• Suggest a color palette which is suitable for a design that involves:
	a. net banking
	b. food ordering service
	And justify your choice.
