DESIGN PROBLEM STATEMENT

SECTION A

VarunX runs a tourism and travelling agency and wants to expand his business prospects by taking his business online and launch a webapp of his agency. Design a **web app interface, logo and promotional material (banners or posters)** for VarunX's agency. You are free to use any software of your choice.

Or the same problem statement for an E learning web app.

———

If there is anything you've designed in the past and are proud of, share it with us.

(Keep it in a folder named "Personal Projects")

SECTION B

- Your 3 favorite websites and why you like them.

- Describe an app with the worst ever interface.

- Where do you get your design inspiration from?

- A color palette you think is suitable for a design concerning :
  a. online banking app.
  b. music streaming app.

  Also reason for choosing it.
